ESTA CONFERENCIA SE BASA EN OBJETOS REALES

ELOGIO DE LAS COSAS DE CASA

LA NATURALEZA ES UN REFERENTE

LA NATURALEZA ES DE GRAN BELLEZA

EN LA NATURALEZA HAY CAFÉ..PERO NO HAY CAFETERAS

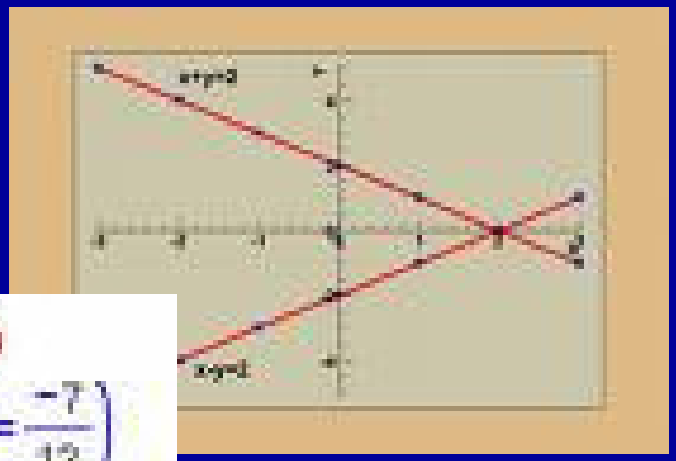
EN MATEMÁTICAS EMPEZAMOS LA CASA POR EL TEJADO

$$\nabla \cdot \mathbf{E} = 4\pi\rho$$

$$\nabla \cdot \mathbf{B} = 0$$

$$\nabla \times \mathbf{E} + \frac{\partial \mathbf{B}}{\partial t} = 0$$

$$\nabla \times \mathbf{B} - \frac{\partial \mathbf{E}}{\partial t} = 4\pi\mathbf{j}$$



Equació determinada

$$\text{resol}\left(\frac{3x-5}{4} - \frac{x-2}{3} = \frac{-7}{12}\right)$$

Equació indeterminada

$$\text{resol}\left(\frac{3x-5}{4} - \frac{x-2}{3} = \frac{5x-7}{12}\right)$$

Equació incompatible

$$\text{resol}\left(\frac{3x-5}{4} - \frac{x-2}{3} = \frac{5x}{12} - 7\right)$$

LA MATEMÁTICA HA DE PARTIR DE LA VIDA COTIDIANA Y LUEGO ELEVARSE

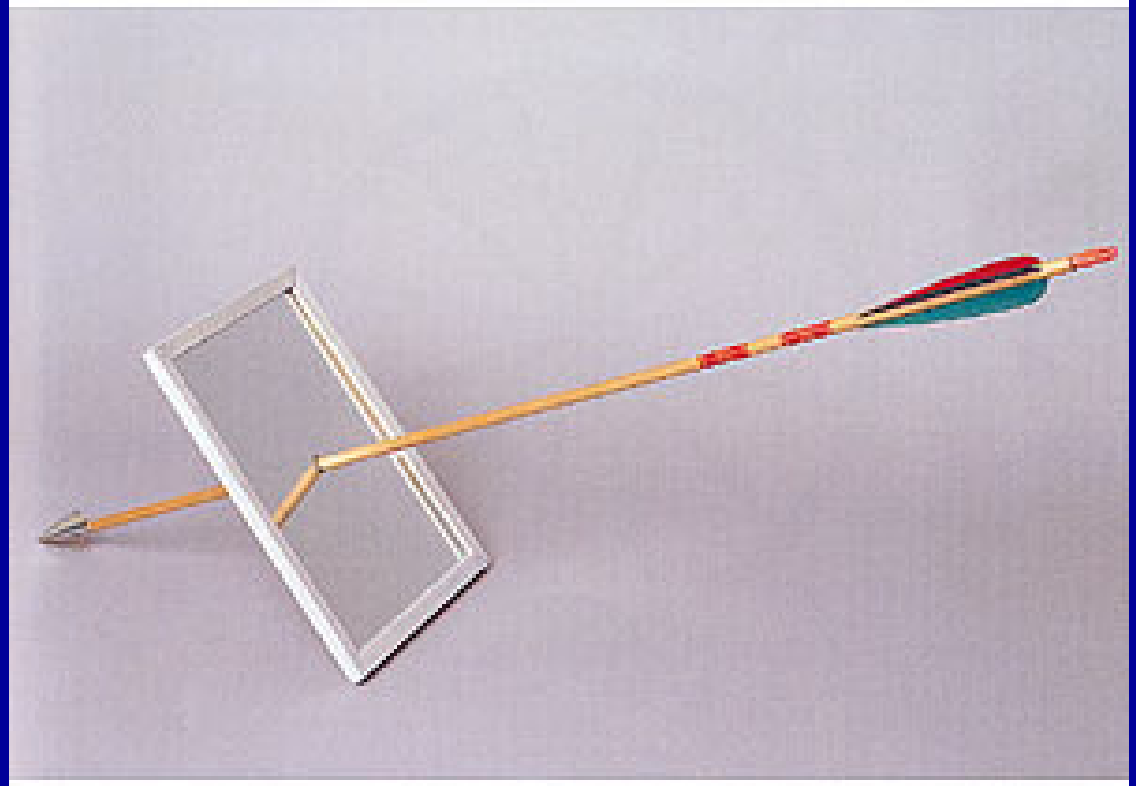
LAS COSAS DE CASA SON GRATIS Y ESTAN CON NOSOTROS

- **“MY PEOPLE, NOW IT IS TIME FOR US ALL TO SHAKE HANDS WITH THE RAIN.**

  IT’ S A NEIGHBOR, LIVES HERE ALL WINTER”

  W.Stafford

HAY MUCHAS COSAS ESTÚPIDAS



PERO TENEMOS COSAS MUY INTERESANTES

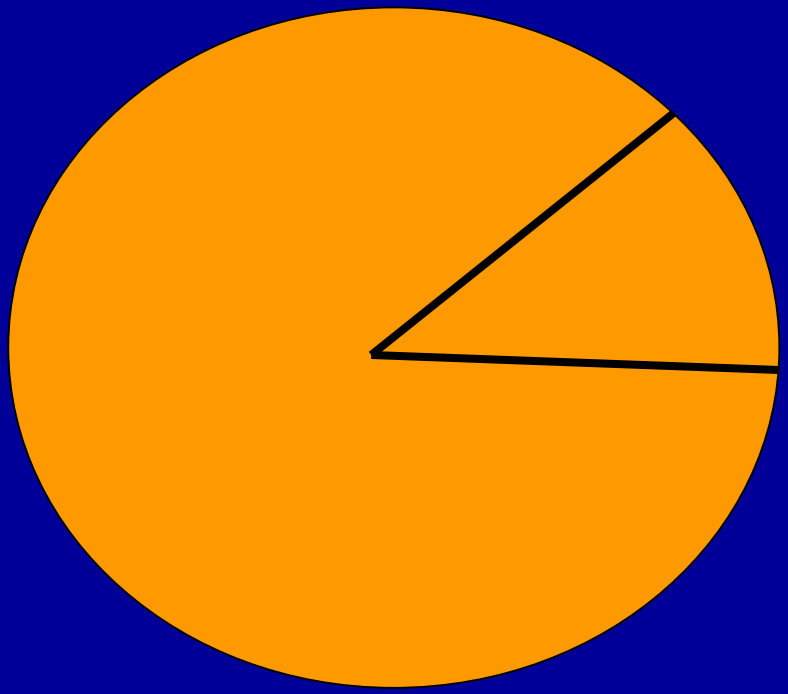
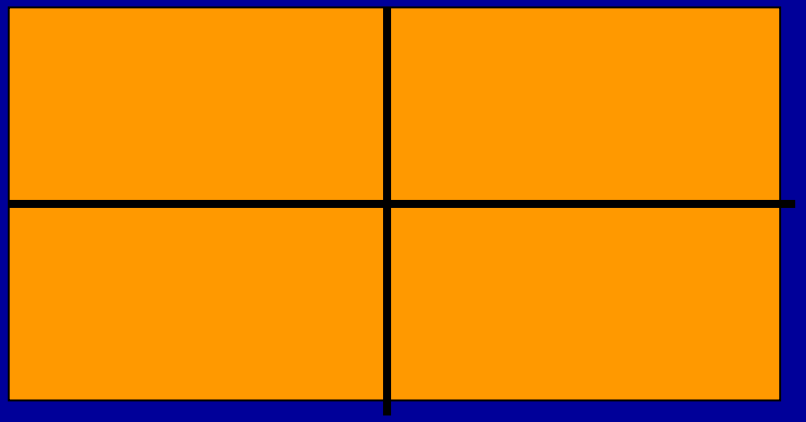
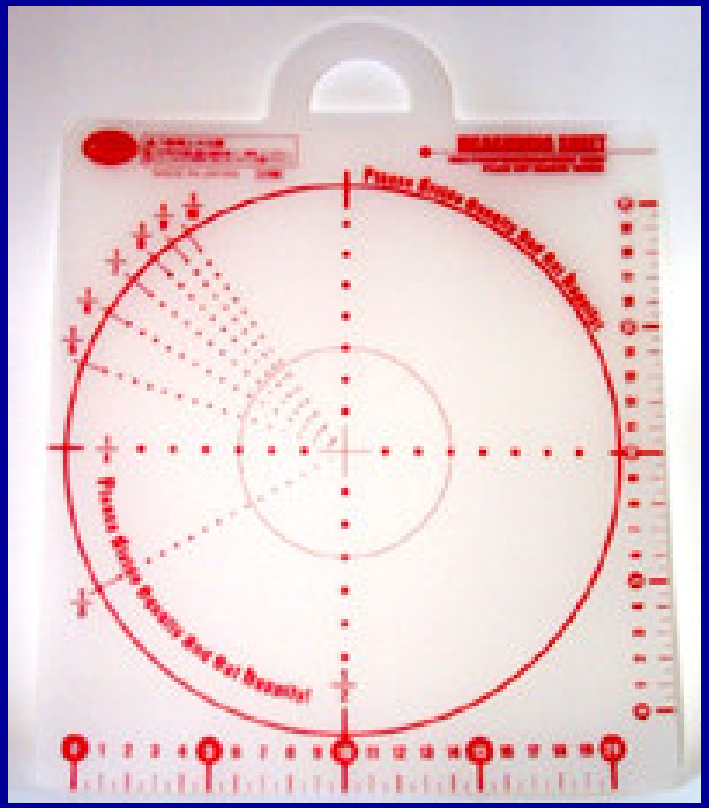
MAS PASTELES POR FAVOR

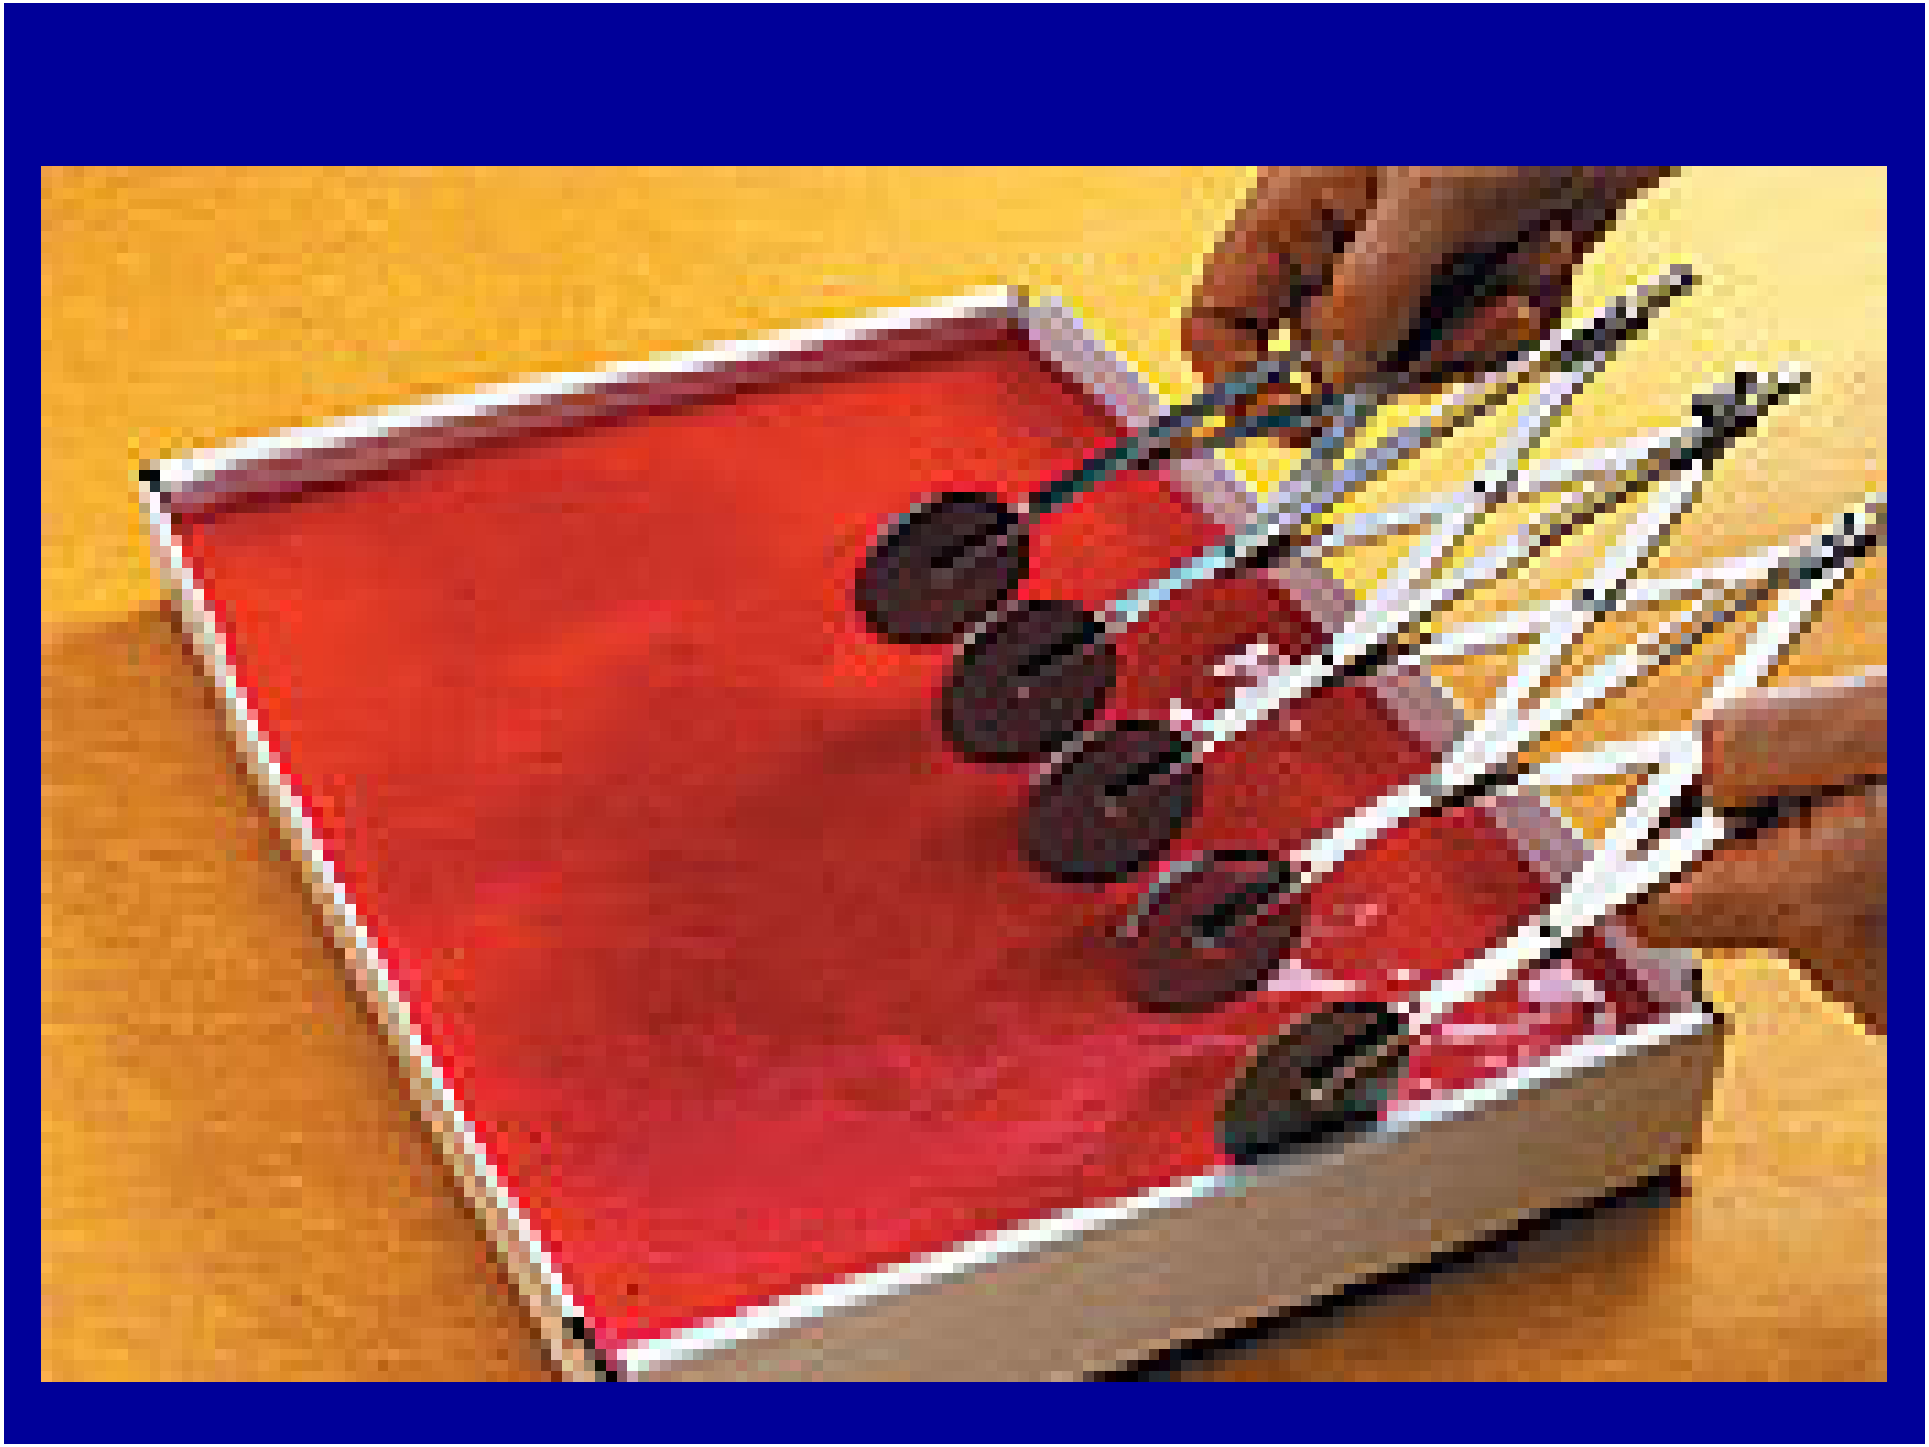
¿COMO REPARTIR UN PASTEL DE MANERA JUSTA?

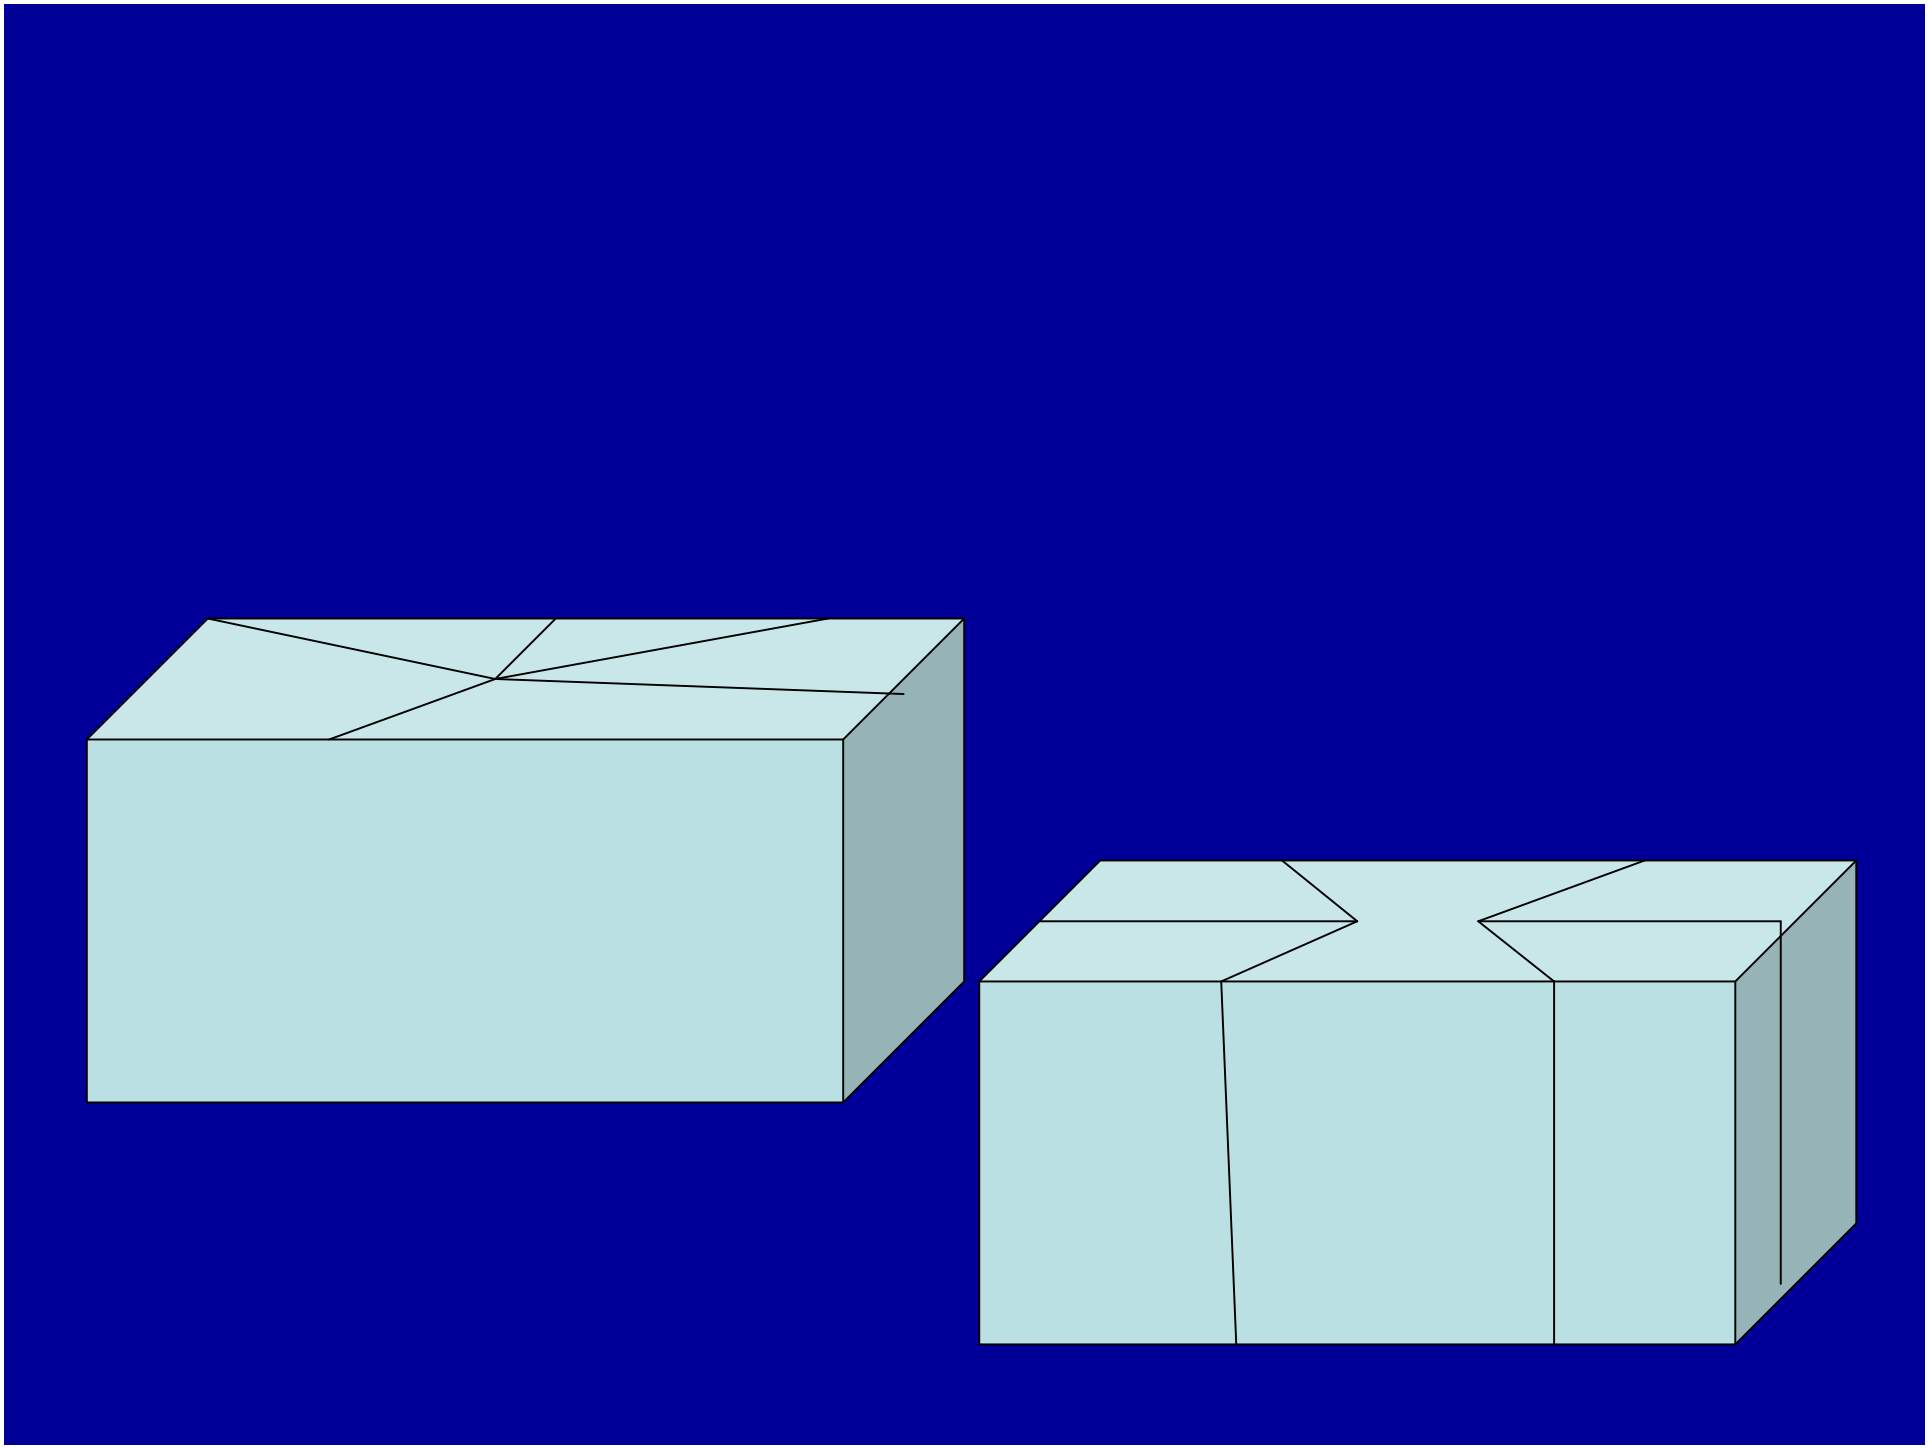




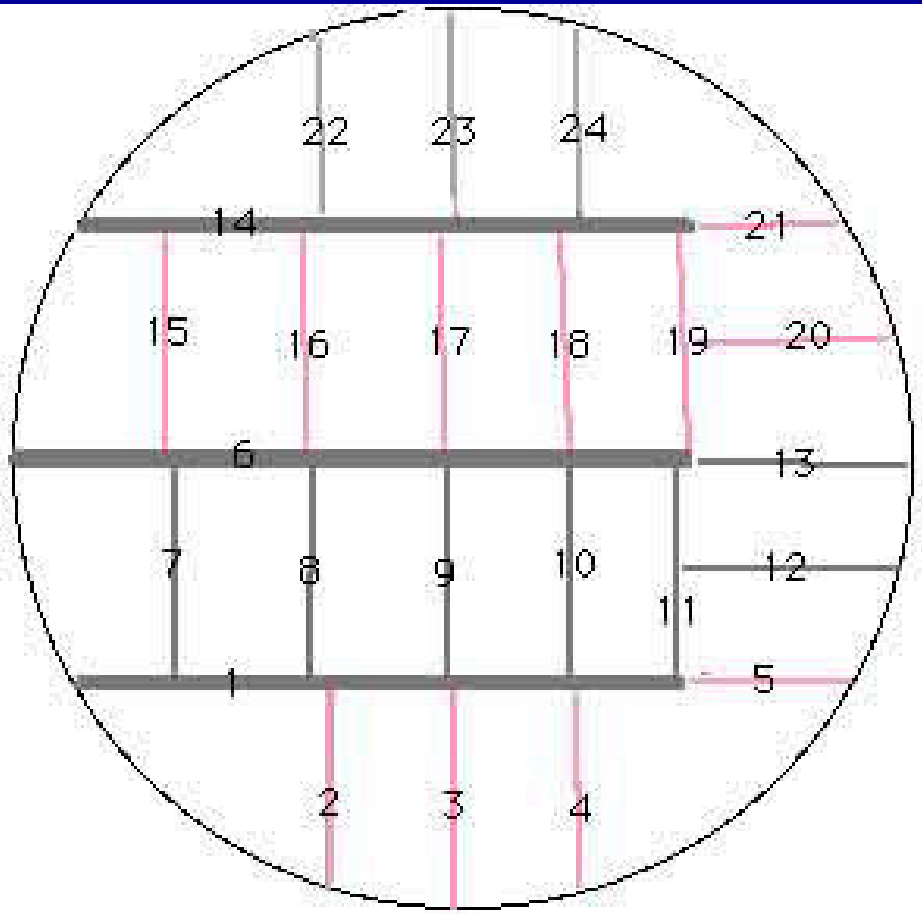
TU CORTAS,
YO ELIJO







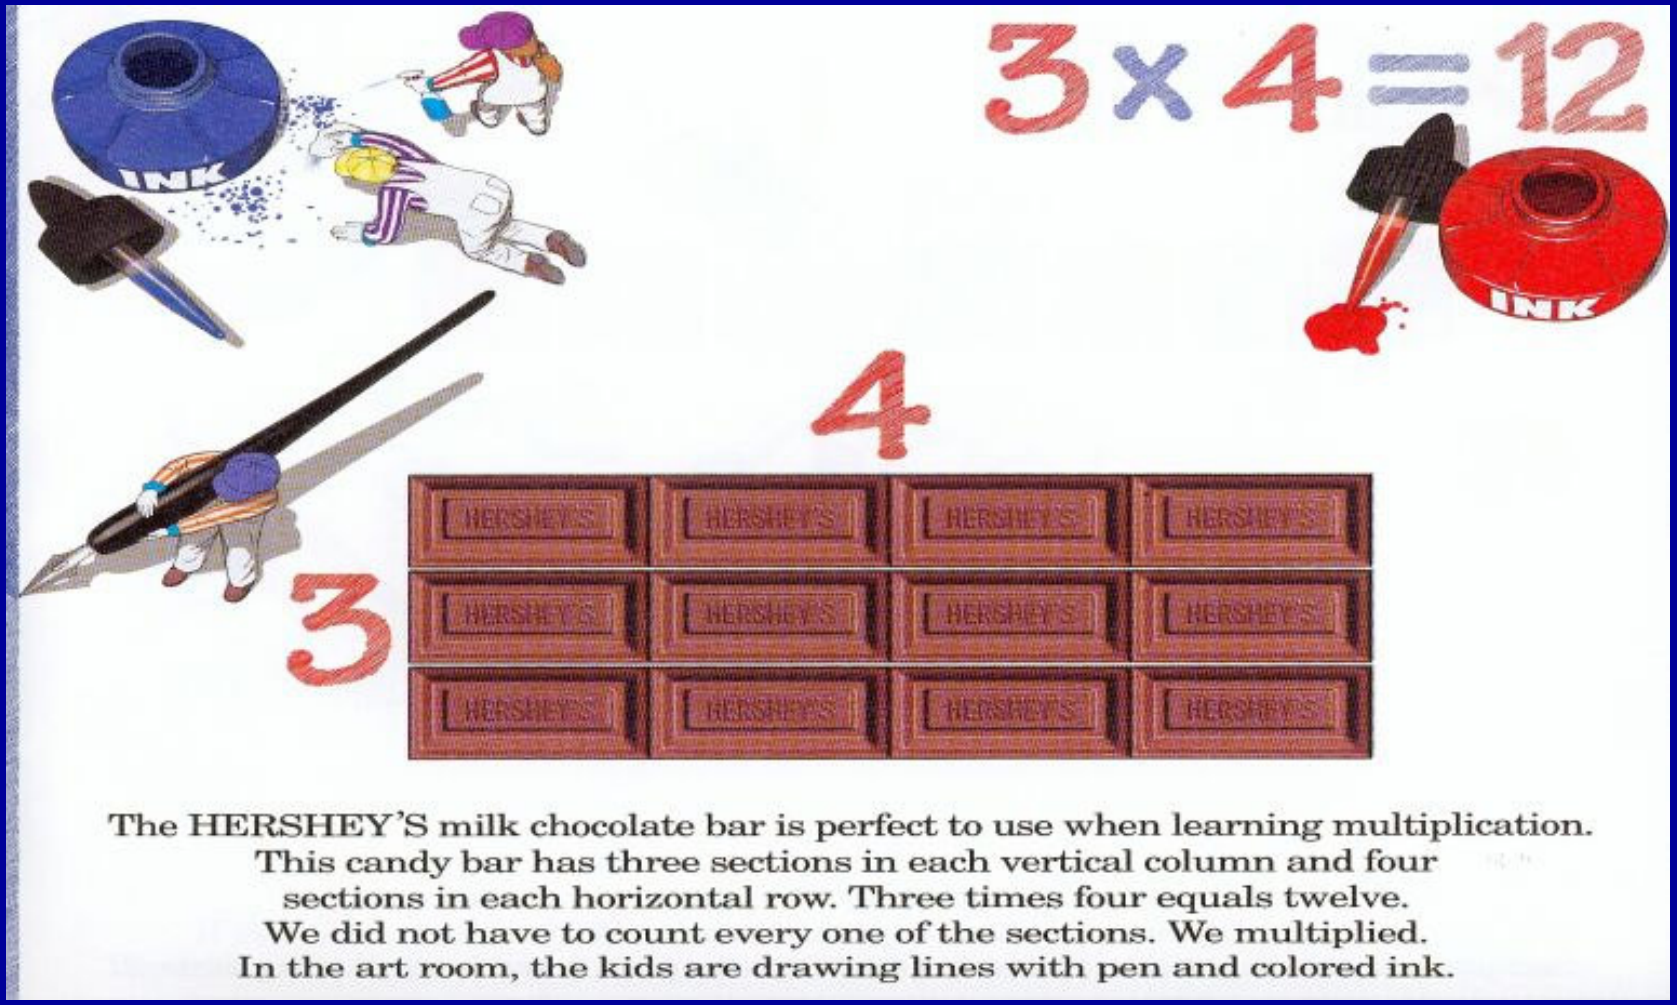
PASTEL REAL



Example of how to cut a cake to prevent cake pieces from falling until you are ready for them. Note Cuts 1, 6, and 14 are not cake servings. You will get 22 servings here and that matches up with a 9 inch round cake tier. Other size tiers are cut using the same method 2" deep cuts and 1" wide cuts.

LA MATEMÁTICA RIGUROSA SE HACE CON LA MENTE LA MATEMÁTICA HERMOSA SE ENSEÑA CON EL CORAZÓN

JOSEP ESTALELLA



The HERSHEY'S milk chocolate bar is perfect to use when learning multiplication. This candy bar has three sections in each vertical column and four sections in each horizontal row. Three times four equals twelve. We did not have to count every one of the sections. We multiplied. In the art room, the kids are drawing lines with pen and colored ink.
